

## pH Scale

Create an A3 poster showing the pH scale in colour.

You must place the following substances on your pH scale and state their pH.

- coca cola
- orange juice
- tea
- water
- blood
- toothpaste
- bleach
- 2 of your own examples.
- Explain what is meant by a neutralisation reaction?
- How can we treat bee stings?

# pH scale

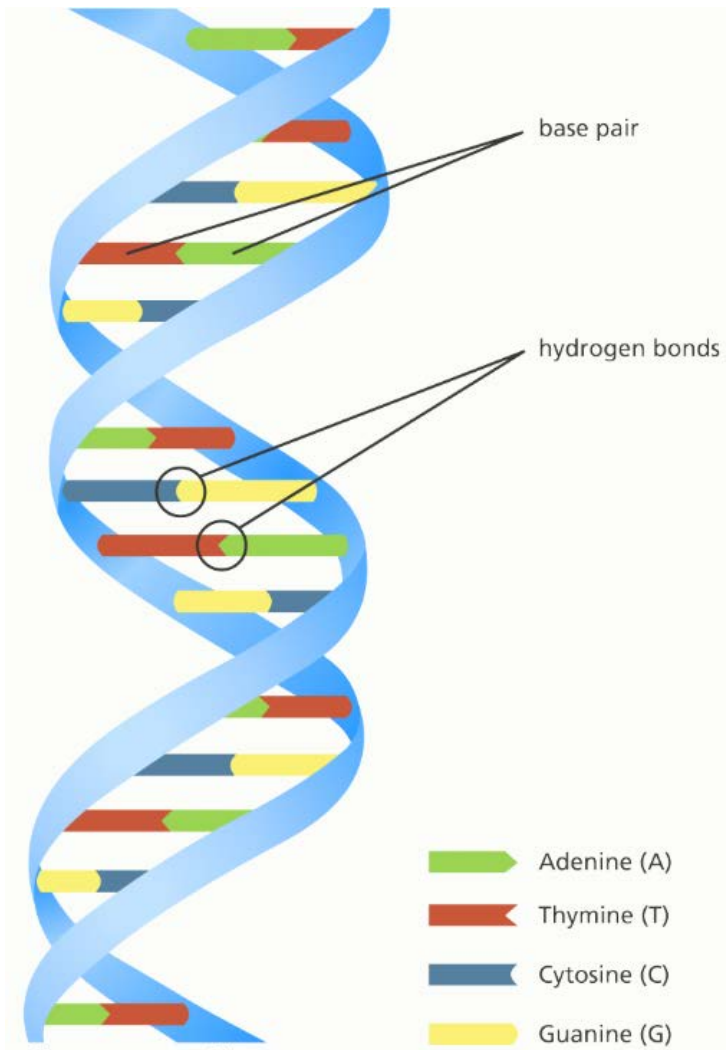

Notes/Planning:

DNA; a natural polymer.

Create a 3D model showing a DNA molecule.

You must show/include:

- twisted double helix structure
- the job of DNA
- where in the cell DNA is found.

Notes/Planning:
