

Digestive System

Create a 3D model of the digestive system.

You must include the route that food takes via..

- Mouth
- Salivary glands
- Oesophagus/gullet
- Stomach
- Pancreas
- Gall bladder
- Small intestine
- Large intestine
- Rectum
- Anus

Notes/Planning:

Inheritance

Create a poster about fertilisation and development of a baby in the uterus

You must include:

- The no. of chromosomes in a sperm cell
- The no. of chromosomes in an egg cell
- Adaptations of a sperm cell
- What happens at fertilisation?
- Brief description of the journey of the sperm.
- What happens to the outer layer of the egg when a sperm enters?
- How does the baby get bigger?

Notes/Planning:
