

- This assessment is based on the expectations set out in the Government guidance for schools Guidance for full opening from Sept 2020. Dec 2020 <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools> but must be adapted in order to give a clear narrative on the specific controls being put in place within your school to manage the risk from coronavirus.

As with other areas of risk school employers and leaders are required to reduce risk as far as is reasonably practicable, recognising that it is not possible to completely eliminate the risk of coronavirus.

- During this evolving situation, SLT will monitor and follow government guidance, further reviews and updates to the risk assessment will take place and be shared with staff.
- This also takes into account the Governments CONTAIN framework to avoid further school closure.
- This version 9 relates to The National lockdown. 06.01.2021 <https://www.gov.uk/guidance/national-lockdown-stay-at-home>. See Appendix 1

[DFE Contain Framework](#)

Monitor and review

The school will continue to review how staff and students adapt to the controls, there will almost certainly be areas where the risk assessment will need review to reflect additional controls or risks, which only became apparent as our operational activities and curriculum are delivered.

² **Overview** - Anyone who experiences any coronavirus (COVID-19) symptoms can access a test at a testing site or at home using the [online booking portal](#). This includes all pupils, teachers, and staff. In July we set out a commitment that by the autumn, all schools and further education (FE) providers will be provided with a small number of home testing kits to complement these main access routes. From 26 August, all schools and FE providers will receive an initial supply of 10 home test kits. Home test kits should only be offered to individuals in the exceptional circumstance that you believe an individual may have barriers to accessing testing elsewhere. The best and fastest way for students or staff to access a test is to visit a testing site. This guidance is intended to support schools and FE providers in offering home test kits. It applies to all mainstream, special, alternative provision and FE providers

- This also takes into account the national guidance for restricting attendance during lockdown. [School national restrictions guidance.pdf](#)

The key points from this are;

- Schools will close to all but Keyworker/vulnerable students. Until at least Feb half-term
- Summer exams will be replaced by teacher assessed grades
- High quality remote learning will be expected for all students. This can be inspected by OFSTED. [remote-education-good-practice](#)
